Our Offerings

The TLS legal staffing team is experienced at finding lateral talent for partner and associate level positions as well as in-house attorney positions. We are also a dependable resource for providing temporary staff attorneys, litigation support, and paralegal and administrative positions.

Our Process

Before ever presenting a candidate for consideration, TLS will complete the following:

- Develop a comprehensive hiring profile with input from our client
- Confirm work history, compensation requirements, and degree status
- Complete three professional reference checks
- Secure writing samples and conflicts lists
- Personally interview all candidates

Temporary Project Staffing

TLS can be a valuable resource throughout the discovery process, providing staffing solutions for critical deadlines associated with large-scale litigation. We can furnish experienced legal professionals (attorneys or non-attorneys) for projects ranging from coding to document reviews to multilingual depositions.
