

# TRANSPERFECT MULTILINGUAL TYPESETTING SERVICES

EXPERT GRAPHIC SERVICES  
IN OVER 100 LANGUAGES

## UNPARALLELED RESOURCES

Linguistic expertise is crucial when creating or adapting graphic files for other languages. You need specific knowledge about how to adjust Arabic type to fit the space that is available, how to hyphenate German word breaks, or how to make Japanese text fit perfectly in a photo caption box.

This knowledge and ability is key to the success of your multilingual efforts.

Our experts know the usage of specific languages and are adept in graphic production and design. TransPerfect's dedicated specialists will provide a customized set of services to meet the needs of your creative team and support your branding and communication efforts—in over 100 languages.

## WORLD-CLASS SERVICE

TransPerfect's expert desktop publishing team provides a full array of formatting and graphic services in any application and any language. Our clients rely on us for the highest level of service, skill, and assurance they need to design and execute successful campaigns. Whether we are providing services in alphabet-or-character-based languages, we can deliver output to meet tight deadlines and accommodate last minute revisions. Every project is supported by our unparalleled commitment to client service and our ISO 9001:2000-certified quality management system.

## LANGUAGE EXPERTISE

Our graphic artists, technology specialists, and linguists work together to ensure that the unique requirements of each language are met. Spanish text is likely to expand by up to 25% when compared to the English original. Our experts know how to adapt your files and your images to work together flawlessly.

When dealing with intricate charts, diagrams, and labels, or simply a project that requires graphic proofreading in another language, we can ensure that the right text is where it should be. With TransPerfect, you can be sure that your documents will be consistent in each language version. In addition, all our projects include post-DTP proofreading by native-speaking linguists.

## CUSTOMIZED SOLUTIONS

With expertise in all applications, we draw upon the most comprehensive selection of fonts in more than 100 languages. We can typeset complex files in Mac or PC platforms and deliver any file format you need, including:

- QuarkXPress
- PowerPoint and Visio
- Flash
- Adobe Creative Suite

Rely on TransPerfect to meet all your desktop publishing needs: we have an unparalleled level of graphic, language, and technological skill.
