A COMPLETE SOLUTION

TransPerfect's in-house production studios are equipped with cutting-edge technology capable of fulfilling all your multimedia needs. Combining high-quality digital recording with Neumann Microphones, Universal Audio Preamps with Phone Patch ISDN, and the latest editing software, including Pro Tools Digital Audio Workstation, our dedicated production staff will work with you through each phase of your project—from basic IVRs to complex narrations and lip-synching. Additional services include:

- **Pre-Production:** In addition to script-preparation and formatting services, we can provide voice demos or arrange live auditions to help you cast the perfect talent for your project
- **Post-Production:** Sound design, editing, mixing, sweetening, CD and DVD authoring and video duplication, graphic and on-screen text localization, video editing

A TEAM YOU CAN RELY ON

Our specialists are available to recommend the media solutions best suited to your project. We have staff on site that can handle each and every phase of your project, from cultural consulting and script translation to voice talent selection and recording. Whatever your need, we're here to help.
